Graphics Designer

Hi! I'm **Apio Faith**, and I'm studying graphic design at Women Institute of Technology and Innovation. I love creating art that tells a story and makes people feel something.

In my projects, I focus on things like logos, posters, and websites. I believe good design is not just pretty but also useful. I like to work with others and learn new things.

I'm excited to share my work and connect. Feel free to get in touch!

NEWSLETTERS

PROJECT

THREE.

This is a newsletter from a school magazine. Instead of using the grid element I found it much easier to use text boxes to create the sections of the paper and focused on using only one format (vertical columns).

And the designing and creation was a pleasant experience.

PROJECT

FOUR.

This is a logo for a designer's hub, with a simple yet attractive design, it ensures that work remains clean and allow effective movement of an observer's eyes across the surface.

The only difficulty came up with creating proportionality.
